

川崎純也院長が、Texas A&M 大学 Department of Medical Physiology、および、九州大学医学部(心臓血管研究施設・分子細胞情報学部門、第二内科)在籍中に発表した論文集です。

### 筆頭著者論文

Kawasaki, J., Davis, G.E., Davis, M.J. (2004). Regulation of  $\text{Ca}^{2+}$ -dependent  $\text{K}^+$  current by  $\alpha\text{v}\beta 3$  integrin engagement in vascular endothelium. *J Biol Chem* **279**(13): 12959-12966

Kawasaki, J., Hirano, K., Hirano, M., Nishimura, J., Nakatsuka, A., Fujishima, M., Kanaide, H.: Dissociation between the  $\text{Ca}^{2+}$  signal and tube formation induced by vascular endothelial growth factor in bovine aortic endothelial cells. *European J. Pharmacol.* **398**:19-29, 2000

Kawasaki, J., Hirano, K., Hirano, M., Nishimura, J., Fujishima, M., Kanaide, H.: Troglitazone inhibits capacitative  $\text{Ca}^{2+}$  entry in endothelial cell. *European J. Pharmacol.* **373**: 111-120, 1999

Kawasaki, J., Hirano, K., Nishimura, J., Fujishima, M., Kanaide, H.: Mechanisms of vasorelaxation induced by troglitazone, a novel antidiabetic drug, in the porcine coronary artery. *Circulation* **98**:2446-2452, 1998 (学位取得論文)

Kawasaki, J., Kobayashi, S., Miyagi, Y., Nishimura, J., Fujishima, M., Kanaide, H.: The mechanisms of the relaxation induced by vasoactive intestinal peptide in the porcine coronary artery. *Br. J. Pharmacol.* **121**:977-985, 1997

### 共著論文

Matsumura K, Arima H, Tominaga M, Ohtsubo T, Sasaguri T, Fujii K, Fukuwara M, Uezono K, Morinaga Y, Ohta Y, Otonari T, Kawasaki J, Kato I, Tsuchihashi T; COMFORT Investigators: Does a combination pill of antihypertensive drugs improve medication adherence in Japanese? A randomized controlled trial. *Circ J.* 2012;76(6):1415-22.

Kawasaki T, Sullivan CV, Ozoe N, Higaki H, Kawasaki J: A long-term, comprehensive exercise program that incorporates a variety of physical activities improved the blood pressure, lipid and glucose metabolism, arterial stiffness, and balance of middle-aged and elderly Japanese. *Hypertens Res.* 2011 Sep;34(9):1059-66.

Davis, M. J., X. Wu, Nurkiewicz, T. R., Kawasaki, J., Gui, P., Hill, M. A. Wilson, E. (2002). Regulation of ion channels by integrins. *Cell Biochem Biophys* **36**(1): 41-66.

Davis, M.J., Wu, X., Nurkiewicz, T.R., Kawasaki, J., Davis, G.E., Hill, M.A., Meininger, G.A.: Integrins and mechanotransduction of the vascular myogenic response. *Am. J. Physiol.* **280**(4): H1427-1433, 2001.

Davis, M. J., X. Wu, Nurkiewicz, T. R., Kawasaki, J., Gui, P., Hill, M. A. Wilson, E. (2001). Regulation of ion channels by protein tyrosine phosphorylation. *Am J Physiol* **281**(5): H1835-62.

Kuroiwa-Matsumoto, M., Hirano, K., Ahmed, A., Kawasaki, J., Nishimura, J., Kanaide, H.: Mechanisms of the thapsigargin-induced  $\text{Ca}^{2+}$  entry in *in situ* endothelial cells of the porcine aortic valve and the endothelium-dependent relaxation in the porcine coronary artery. *Br. J. Pharmacol.* **131**:115-123, 2000

Sumiyoshi R., Nishimura J., Kawasaki J., Kobayashi S., Takahashi S., Kanaide H.: Diadenosine polyphosphates directly relax porcine coronary arterial smooth muscle. *J. Pharmacol. Exp. Ther.* **283**:548-556, 1997
